INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying Statements of assets and liabilities of the Integrated Land Administration System Project (the Project) financed under the International Bank for Reconstruction and Development Loan (the Loan) No. 8086-HR as at December 31, 2015 and the related Statement of sources and uses of funds and Statement of expenditure by components (Project Financial Statement). These statements are the responsibility of the Project Implementation Unit. Our responsibility is to express an opinion on this statement based on our audit.

We conducted our audit in accordance with International Standards on Auditing. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the Project Financial Statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Project financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the Project Financial Statements as at December 31, 2015 present fairly in all material respects, the cash receipts and payments in the year 2015 of the Project in accordance with the World Bank's requirements.

The supplementary information included in Annex I to the Project Financial Statements are presented for the purpose of additional analysis and is not a required part of the basic Project Financial Statements. Such schedules have been subject to the auditing procedures applied in our audit of the basic Project Financial Statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic Project Financial Statements taken as a whole.

NOTES TO THE PROJECT FINANCIAL STATEMENTS as at December 31, 2015

1. GENERAL

The objective of the *Integrated Land Administration System Project* is to modernize the land administration system in order to improve the government services from the point of view of efficiency, transparency and cost. The project represents a continuation of the Real property Registration and Cadastre Project and it further deepens the reforms and integration of the land administration system.

Performance indicators are as follows:

- higher customer satisfaction with the services of the land administration
- reduced processing time of transactions in the Land Registry and Cadastre
- higher percentage of users that send requests/transactions online
- greater use of spatial data to be exchanged between state institutions/ministries.

Beneficiaries of the Project are:

- the public, since they will have greater access to information and better services with fully integrated digital data;
- the entire business community, again with faster access to information and services;
- other government bodies that will share more easily and have a better insight into the government spatial data.

The Project encompasses the following four components:

Component A. - Land Registration System Development

Component B. - Spatial Information and Cadastre System Modernization

Component C. - Improving Digital Services

Component D. - Project Management, Training and Public Awareness

The Project is being implemented over a five and a half year turn.

The Advance agreement for the Project preparation No. P459-HR between the Republic of Croatia and the International Bank for Reconstruction and Development (the Bank) in the amount of 1,450,000 USD was signed on August 3, 2010. Advance funds, pursuant to the Agreement, financed the purchase of goods and consulting services for:

- preparatory analysis and studies for preparation of detailed project implementation plan
- pilot project of the system expansion (roll-out) of JIS on four locations
- execution of the project.

Advance funds were used by November 15, 2011.

NOTES TO THE PROJECT FINANCIAL STATEMENTS (continued) **as at December 31, 2015**

The Loan agreement for the Project No. IBRD-8086-HR between Republic of Croatia and the Bank in the amount of 16.5 million Euros was signed on August 17, 2011. The goal of the Project is to modernize the land administration system to improve government services in terms of efficiency, transparency and cost.

Law on ratification of the Loan agreement between Republic of Croatia and the International Bank for Reconstruction and Development for the Implementation of the Integrated Land Administration System Project was adopted on 24th session of the Croatian Parliament on October 21, 2011 and published on November 7, 2011 in the Official Gazette, International Agreements No. 13/2011.

The Loan became effective on November 15, 2011.

This report contains an overview of the use of funds in 2015 and the total for the period from the effective date of the advance agreement No. P459-HR and the IBRD Loan No. 8086-HR to December 31, 2015.

2. BASIS OF ACCOUNTING AND SUMMARY OF ACCOUNTING POLICIES

2.1. Accounting Records and Basis of Presentation

The Project maintains its accounting records using the World Bank guidelines (Annual Financial Reporting and Auditing for World Bank - Financed Activities, Procurement Handbook and Disbursement Handbook).

2.2. Implementation of the Project

Ministry of Justice and State Geodetic Administration, by the relevant Ministry of construction and spatial planning (hereinafter: MGIPU) concluded the Agreement on Implementation of the Integrated System of Land Administration Project on May 16, 2011 and on 14 March 2012 and 13 February 2014 agreement on amendments to the Agreement on the Implementation of the Integrated Land Administration System.

The Agreement was concluded for the purpose of the regulation of mutual relations and responsibilities in the Project implementation, determining body for implementation of the Project and allocation of responsibilities.

The bodies responsible for implementing the Project are Project Steering Committee, Coordinators of components of the Project in the Ministry of Justice and the State Geodetic Administration and the Project Implementation Unit.

The Project Steering Committee has two co-chairs: Assistant Minister of Justice for civil, commercial and administrative law in the Ministry of Justice and the Director of the State Geodetic Administration.

Members of the Project Steering Committee are: MGIPU Assistant Minister, Head of the Land Registry Management Service in Ministry of Justice, Head of the Division of Cadastral System of the State Geodetic Administration, named representative of the Supreme Court of the republic of Croatia and a named representative of the Ministry of Finances.

NOTES TO THE PROJECT FINANCIAL STATEMENTS (continued)
as at December 31, 2015

2.2. Implementation of the Project (continued)

Dear Sirs,

We are pleased to submit this letter, containing our comments, observations, and recommendations concerning the internal control structure and other matters which resulted from our audit of the Integrated Land Administration System Project ("the Project") financed under International Bank for Reconstruction and Development Loan No. 8086 - HR at December 31, 2015.

In planning and performing our audit we considered the project's internal control structure in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements taken as a whole, and not to provide assurance on the internal control structure. Our report cannot, therefore, be expected to include all possible comments and recommendations that a more extensive special examination might indicate. We also considered the degree of compliance of the Project with any loan covenants, the World Bank Procurement guidelines, World Bank Disbursement guidelines and the World Bank financial reporting guidelines.

This report is intended solely for the information and use of the International Bank for Reconstruction and Development and the Project Implementation Unit. We would be pleased to discuss our comments, observations, and recommendations with you.
